EDUCATION

University of Maryland, College Park | College Park, MD

May 2029

B.S. in Mechanical Engineering

GPA: 3.72/4.0

- Relevant Coursework:
 - * **Completed:** Chemistry for Engineers, Intro to CAD, Multivariable Calculus, Differential Equations, Modern Physics, Mechanics I
 - * **Summer/Fall 2026:** Mechanics II, Dynamics, Electronics and Instrumentation
- Relevant Projects:
 - * **Autonomous OTV**
 - Designed drivetrain, calculated speed and torque requirements, and selected motors
 - Modeled 3D printed custom brackets for motors, linear actuator components, and wheel assembly
 - * **Battle Droid**
 - Modeled parts and mechanical assembly of a Battle Droid in SolidWorks using only reference images
 - Utilized custom geometry tools to create organically shaped parts

WORK EXPERIENCE

Research Assistant

February 2026 – Present

Nanoscale Energy and Interfacial Transport Lab | College Park, MD

- Design and construction of experimental dielectric Microencapsulated phase change material cooling loop
- Investigate difference in cooling capabilities of water vs dielectric supplemented with Microencapsulated Phase Change Material for chip cooling scenarios

Mechanical Engineering Intern

June 2024 – August 2024

OptoVibronex | Lehigh Valley, PA

- Researched mechanotransduction and the interconnectivity between implant types, materials, and collagen
- Assisted with designing a 3D-printed arm that holds cameras for an ultrasound cancer detection machine

LEADERSHIP AND ACTIVITIES

Engineer

September 2025 – Present

Terrapin Rocket Team, Solid Motor Subteam | College Park, MD

- Reduced forward closure weight by 4 lbs using hand statics, bolt shear math, and Fusion CFD analysis
- Modeled parts in SolidWorks; machined rings and closures using CNC mills and lathes using Fusion CAM
- Mixed propellant and validated 30,000ft O-class motor performance via OpenMotor and live static fires

Undergraduate Senator

May 2026 – Present

A. James Clark School of Engineering Senate | College Park, MD

- Elected by undergraduate student body to serve on the Engineering Senate

Assistant Senior Patrol Leader

December 2021 – March 2025

Scouting America | Whitpain, PA

- Managed a \$3,000 budget and led a team of 20+ volunteers over multiple days to construct an outdoor classroom
- Coordinated logistics, budgeting, and scheduling for an expedition to Sea Base Florida for 24 scouts and adults
- Mentored younger scouts in teamwork, first aid, wilderness survival, and emergency preparedness

SKILLS

Technical: Autodesk Inventor, Solidworks(Certified Associate), Fusion360, 3D-Printing, FEA analysis, Part iteration and fit testing, Lathing, CNC Milling, OpenMotor

Other: Laboratory Research, Native Spanish Speaker

HONORS

Deans List (Spring 2026, Fall 2025), Eagle Scout, 2025 Union League Scholar
